New Play Equipment for Early Years School and Primary School

*Perspective of the new play equipment at Early Years Campus*

More good news to all especially for our Early Years and Primary School students! Bromsgrove International School Thailand will be installing new play equipment at both campuses especially for our youngest students at the school.

The photos speak for themselves! The new playground facilities should be fully installed by term 3 of this year. Soon after we come back from our Songkran holidays or earlier if at all possible.

I am sure all will be excited with these new developments that we are making at Bromsgrove International School.
