

## **Bromsgrove International School Thailand Summer School 2010**

Summer School at Bromsgrove is especially designed to provide students with structured, purposeful, interesting and enjoyable activities. It provides an excellent opportunity for students to be fully engaged during the summer school holidays. Each year, new interesting activities are incorporated in the planning by our qualified teachers mostly from England. Thailand has a wide variety of outdoor activities both within Bangkok itself and in the nearby provinces. Students are guaranteed a total experience of not only what the school has to offer in terms of learning English, sports and other activities but also of the Thai culture and hospitality.

Participants are guaranteed lots of learning, fun and challenges that they can enjoy with their teachers and friends. Weekly field trips are organised to further enhance their learning adventure.

The school is located east of Bangkok within 30 minutes from Bangkok International Airport and within the grounds of a 36-hole golf course. Participants come from Thailand and overseas.

We offer a choice of Day (9am to 4pm) or Boarding (weekly or full boarding).
